

Acronis Tech Training

Become an Acronis Pro!

You want to get skilled with Acronis Backup & Recovery 11 in a corporate network environment? Then you should attend one of our Acronis Tech Trainings. On side our experts will provide you with comprehensive background knowledge about Acronis Backup & Recovery 10 corporate solutions.

Get qualified!

Acquire in-depth knowledge about

- Disk imaging and backup strategies in a server environment
- System Availability
- Deployment
- Recovery to homogeneous and heterogeneous hardware and in virtual environments

You will know how it works!

After our training you will be capable of migrating from physical to virtual systems easily. Furthermore you will be able to recover systems with and without booting from the network. Needless to say that you will be ready to recover complete systems from an image and thereby decrease downtime significantly.
